Summary

Computer Science Engineering student with hands-on experience building mobile applications, websites, AI-focused applications, and collaborative software projects using Flutter, React, Java, and Python. Interested in application development, web development, AI, and practical product building, with experience working independently and in collaborative teams.

Projects

JARVIS — AI Assistant Application
- Built an **AI assistant application** with task management and alarm functionality using **Flutter** for mobile and desktop targets.

LoanLens AI — AI-Based Loan Assessment
- Developed an **AI-focused loan assessment application** covering loan analysis, risk information, and interactive insights.

FeedGuard AI — Feed-Quality Analysis Platform (Collaborative)
- Built an AI-driven platform with a **React/Vite** frontend, **FastAPI** backend, and **PostgreSQL** integration.
- Integrated **machine-learning components** for feed screening and anomaly analysis.

SkillGap AI — Resume Skill Gap Analyzer
- Developed an **offline Java application** that compares resume skills with those required for a selected job role and generates a personalized skill-gap report.

AJ Controller — Mobile-to-PC Controller
- Built a **Flutter** application that connects a mobile device with a PC and provides controller functionality.

DC Outpass — College Outpass Management (Collaborative)
- Contributed to an outpass management project developed for **Dhaanish Chennai College**.

JAS Traders Website | NanoSpark Web Designing
- Developed a business website for **JAS Traders**, a paper-bag production company.
- Contributed to collaborative web-design work for a startup environment (**NanoSpark**).

Technical Skills

Programming
Java, C, C++, Python, JavaScript, TypeScript, Dart

Frontend & App Development
HTML, CSS, JavaScript, React, Flutter

Backend
Express.js

Tools & Platforms
Git, GitHub, Vercel

Core
Problem Solving, Software Development, Team Collaboration, Product Building

Experience

Co-Founder, *CodeVstudio*
- Co-founded a **digital-development company** focused on building web and software solutions.
- Contribute to digital product and web-development initiatives.

Flutter App Development Intern, *IT Boundaries*
- Completed an internship focused on **mobile application development using Flutter**.

Education

B.E. Computer Science and Engineering, *Dhaanish Chennai College of Engineering* — 2nd Year
CGPA: 8.8

Higher Secondary Education (12th), *Maria Rafols Matriculation School* — Puthoor, Kanyakumari District
Percentage: 84%

Secondary Education (SSLC), *Maria Rafols Matriculation School* — Puthoor, Kanyakumari District

Certifications

- **Mobile App Development using Flutter** — IT Boundaries
- **Java, C++, C and Python** — CSC Education, Thingal Nagar, Kanyakumari District

Achievements

- **Winner** — Prompt Wars, symposium conducted by SRM Easwari College

Activities & Participation

- Conducted a school visit and delivered an awareness session on **AI** to students
- Delivered a session on **game development** for first-year students
- Participated in 3+ symposiums, 2 internal hackathons, and 1 external hackathon
